

2.3.21

T: Can I use email safely?

Year 3

Unit 3.5 Email

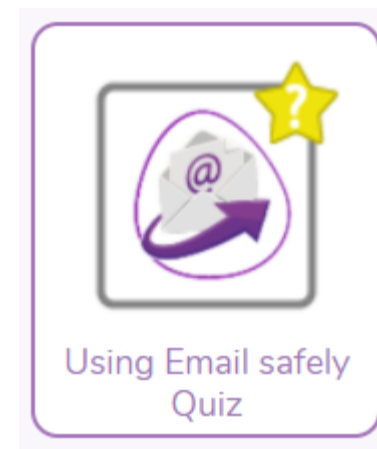

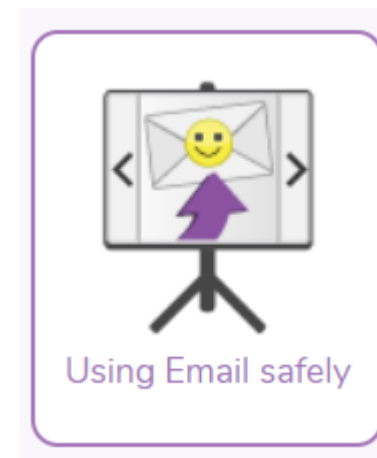

Today we are going to...

remind ourselves how to use email safely.

While you have been working at home you should have been able to access your own school email account so that you can send and receive messages.

Follow the instructions and complete your 2DOs on Purple Mash. The first one is a slide show about using email safely.

When you have read through the slides, have a go at the quiz.

In each box that says 'question', you will see a statement about using email.

You need to think about it, then type 'safe' or 'unsafe' into the box below.

Test your knowledge!
